

2009-10 Kindergarten Registration

New Information Regarding your Kindergartener

Starting with the 2009-10 school year, all children must turn 5 years old by August 31 to enroll in kindergarten (with the exception of students who qualify for early kindergarten entrance).

Guilford County Schools encourages all parents of age eligible 4- and 5-year-olds in Guilford County to register their children.

Kindergarten registration begins March 2, 2009. To register, parents need to bring the following to their child's assigned school:

- A certified birth certificate
- A kindergarten health assessment report
- A record of your child's immunizations
- Proof of residence

Exceptions

Gifted 4 ½-year-olds who are functioning two to three years beyond their age can be eligible to enroll in kindergarten early. To see if your child qualifies, contact the principal of your child's assigned school.

Pre-K

Parents of children who turn 4 years old on or before August 31, 2009 may want to explore district and community Pre-K opportunities. Children are determined eligible through a screening process. For additional information about Pre-K services for your child, contact the Pre-K office at 370-2362.
