RE: OSH Complaints 207249806/ 207249814/ 207310798

Oak Ridge Elementary School

Dear Mr. Greeson,

Your letter received on June 24, 2009 concerning the above referenced complaints has been reviewed. Based on the information you have provided, OSHNC feels the cases can be closed on the grounds that the alleged hazardous conditions have been corrected or no longer exist.

It appears from your response that the Guilford County School system has followed the recommendations and actions proposed by NIOSH and other government agencies to abate the alleged mold conditions. OSHNC will review the final NIOSH report when it becomes available and follow-up with the school system regarding any additional actions recommended in the final report. This letter does not prohibit OSHNC from initiating an inspection of these complaints.

Your actions on behalf of safety and health in the work place are appreciated.

Sincerely,

Tim H. Childers  
Bureau Chief
