

Changing Your *Discovery Education streaming* Password

You can change your *Discovery Education streaming* password but you cannot change your *Discovery Education streaming* username.

1. Click on My Account.
2. The “My Profile” part of your account will show your name, address, email, log-in access and teacher information. Any blank that has a blue asterisk beside it has to be filled in. Some of the blue-asterisked items may not be filled in now if your account was created for you. You will have to add the information now in order to save your changes and leave the My Account section.
3. The email address is very important. If you forget your password, Discovery Education tech support will send it to you---if you have given them an email address. This is an asterisked item, so it must be completed before you can proceed. Check to make sure that it is correct and complete.
