

Comprehensive Progress Report

Mission: Our mission at SCALE Greensboro Academy is that all staff, in partnership with parents, families, and communities are fully committed to students being college and career ready. Where students are empowered to meet current and future challenges to develop social awareness, civic responsibility and personal growth. Provide opportunities to support students as they develop into productive and informed citizens in a global community.

Vision: At SCALE Greensboro Academy, we will provide a learning environment with therapeutic support, behavior and academic interventions, and prevention programs that will redirect students to lead a productive life. Creating a culture that values people and connections; making it a unique, accepting, project-based learning academic environment for students to succeed on many levels. Our purpose is to prepare students to move forward with a strong sense of self into a life filled with promise.

Goals:

By June 2024, SCALE Greensboro Academy will utilize functional, effective, impactful instructional leadership (ILT), school improvement (SIT), and academic (PLC) teams to continue developing, implementing, assessing, and monitoring instructional strategies. Teams will incorporate math skills into daily lesson plans. Student proficiency in Math 1 will increase by 5%. Achievement will be measured as grade-level proficiency on EOC Math 1 assessments. It will serve as an indicator of student performance which will be weighted 5% based on the Alternative School Progress Model Option C.

By June 2024, SCALE Greensboro Academy will develop a system to reduce weekly student chronologically absent percentages, as reflected by the weekly data dashboard reports. We will strive to maintain below 50% chronologically absent students, according to individual student membership days. We will utilize the attendance team to monitor student attendance data and implement a team approach to strategies to reduce student absenteeism to include attendance incentives, individual student check-ins, parent outreach, and community resources.

By June 2024, SCALE Greensboro Academy will decrease disciplinary referrals for Rule 6 and Rule 8 that result in loss of instructional days out of class due to In School and Out of School Suspensions by 5% as teachers will be attentive to student's emotional states and provide interventions when necessary. Teachers will implement daily Social Emotional Learning (openers, engaging activities and closures) which is embedded in the bell schedule, use Classroom Management strategies, Restorative Practice and Social Justice Circles to positively reinforce procedures and routines by explicitly teaching them.

By June 2024 SCALE Greensboro Academy teachers will maintain parent engagement and communications efforts at 100% as measured by the Alternative School Progress Model Option C, through conferences, phone calls, home visits, emails, and letters sent home in an effort to create opportunities for parents to engage in their students learning through purpose, communication, education, and association around the needs of the students being served in our program. SCALE-Greensboro teachers will implement cross curricular parent events and educational workshops to support parent and family engagement in the school.

<i>Initial Assessment:</i>		All educators in our school currently model, facilitate, and participate in a social emotional learning activity with students daily at SCALE-Greensboro. We have a tiered process in place for addressing classroom and schoolwide behavior issues. It includes support from our School Behavioral Specialist, and referrals to the school social worker and/or school counselors. The team works to redirect student behaviors and utilizes the in-school suspension option when necessary. Students who do not successfully correct their behavior or have serious rule violations are referred to the school principal. We also have a School Based Mental Health program with therapeutic services provided through a GCS Mental Health Clinician.	Limited Development 09/21/2017		
<i>How it will look when fully met:</i>		SCALE-Greensboro will decrease disciplinary referrals for Rule 6 and Rule 8 that result in missed instruction due to In- School and Out of School Suspensions by 5% as teachers will be attentive to student's emotional states and provide interventions when necessary. Teachers will use Classroom Management strategies, Social Emotional Learning strategies, and Restorative Practice to positively reinforce procedures and routines by explicitly teaching them. Staff and students will be able to do the following: a. Be responsible—understand one’s obligation to engage in ethical, safe and legal behaviors b. Manage emotions—regulate feelings so that they aid rather than impede the handling of situations c. Solve problems creatively—engage in a creative, disciplined process of exploring alternative possibilities that leads to responsible, goal-directed action d. Respect others—believing that others deserve to be treated with kindness and compassion as part of our shared humanity e. Communicate effectively—using verbal and non-verbal skills to express oneself and promote effective exchanges with others f . Build relationships—establishing and maintaining healthy and rewarding connections with individual and groups;		Duane Lewis	01/31/2024

KEY	A2.04	Instructional Teams develop standards-aligned units of instruction for each subject and grade level.(5094)	Implementation Status	Assigned To	Target Date
<i>Initial Assessment:</i>		Currently SCALE-Greensboro Academy has one core teacher in each content area thus not affording our staff the opportunity to form a true Professional Learning Community as outlined by the Dufour Model. However, as we begin to examine our current practices as staff, we will begin to explore meeting with other Professional Learning Communities within the district to improve instruction and brainstorm with other teachers teaching the similar content. We will continue working with off sites teaching staff that are under our supervision to develop unit plans that encourage our teachers to work together to overlap the content being taught when applicable. We will also implement virtual meetings for teachers to collaborate.	Limited Development 09/26/2016		
<i>How it will look when fully met:</i>		The Staff at SCALE- Greensboro will begin to work with instructional learning teams to improve student outcomes by meeting quarterly with the principal and teachers who share common planning periods. Also, during this time the teachers will examine best practices, strategies, and ideas that they have found to be beneficial in meeting the students' individual learning styles. When students enter SCALE-Greensboro, we will attempt to offer an assessment to gauge their individual learning needs as it pertains to the content being taught in their class at SCALE verses their home school. This will serve as an indicator for our teachers to begin addressing individual learning needs and gaps in content prior to moving forward, given the fact that we serve students from throughout the district at any given time within the grading period. Information to gauge the effectiveness of this goal will be minutes from meetings, interim/formative assessment data, EOC/EOG results, lesson plans, and cross-curricular units that demonstrate mastery in two or more content areas at the same time. We will bring in district coaches to support teachers in their content area.		Zoretta Hayes	06/30/2024
