New!

Academy of Computer and Information Science at Northeast High

GUILFORD County Schools
SOAR TO GREATNESS

Students in this program will:

- Learn to interact with computers and computer systems through coding, networking, and data analytics
- Connect learning to the challenges faced by computer scientists through experiences provided by industry partners
- Graduate with industry credentials, professional and technical skills and college credits

Majors available:

- Cyber Security
- Artificial Intelligence
- Geospatial Technologies

Who should apply:

- Rising ninth-grade students who live in the Dudley, Eastern, Grimsley, Northeast, Northern, Page and Southeast High attendance zones. At this time, transportation will not be provided.
- Students interested in computer engineering, information science, cybersecurity or programming.

Post-graduation potential:

- Graduates are prepared for college majors such as cyber security, digital forensics, software engineering and management information systems.
- Students desiring to go to work immediately have training and credentials for jobs such as computer programmer, systems analyst or software developer.
- Salary potential ranges from $58,000 per year for network support specialists to $126,000 for information systems managers.
- Computer and information science is one of the fastest-growing, highest-paid professions available.

How to apply:

- Complete an online application using the link at **www.gcsnc.com**.
