Academy of Transportation, Distribution and Logistics at Western High

"...educational investment is critical to both acquiring and retaining a skilled 'talent bench' in the Triad as these students reach adulthood and seek long-term careers with high potential for growth."

Ken Waldron, Transplace

Students in this program will:

- Study innovations in planning, management and movement of people, materials and goods by road, pipeline, air, rail and water.
- Learn in a simulated work environment
- Graduate with industry credentials, professional and technical skills and college credits

Majors available:

- Transportation, Distribution and Logistics
- Drone Technologies

Post-graduation potential:

- Graduates are prepared for college majors such as logistics and supply chain management, operations management and drone technology.
- Students desiring to go to work immediately have training and credentials for jobs such as a drone pilot, logistician, industrial production managers or machine operator.
- Salary potential ranges from \$40,000 per year for traffic technicians to \$90,000 for distribution managers.

Who should apply:

- Rising ninth-grade students. At this time, transportation will not be provided.
- Students interested in transportation, distribution, logistics, industrial management or drone technology.

How to apply:

- Complete an online application using the link at www.gcsnc.com.
