

GTCC Transportation Service Areas 2024-2025

For the 2024-2025 school year, transportation service areas for students attending GTCC programs will be limited. Transportation for rising 9th graders and newly accepted students in grades 10th – 12th will be provided based on the information below. Returning 10th – 12th grade students with established bus stops outside these attendance zones will be allowed to keep their home/neighborhood stop. These students have been “grandfathered”. However, if a returning student has never requested transportation or has an address change, a new stop will not be made, and transportation will be provided based on this new model.
