

# *myPerspectives* for HS ELA Classrooms

*myPerspectives*® is a powerful, next generation literacy program that places students at the center of learning and gives teachers the right tools and resources, research-based guidance, and autonomy to do what they do best to support each unique learner.

## **Student-Centered Learning**

Relevant and diverse texts and media allow students to see themselves reflected in the stories and develop their own voice as they build knowledge and participate in the broader conversation. A built-in gradual release instructional model promotes ownership of learning, collaboration, and student independence.

## **WHAT ABOUT READING AT HOME?**

Students are encouraged to read 30 minutes per night as part of GCS Reads 30. This is a great way to support students who are already avid readers and encourage them to continue reading for pleasure. Children who are still learning to read will benefit from listening to stories as they see the words pointed out on the page.

## **HOW WILL IT IMPROVE MY CHILD'S READING SKILLS?**

- **Geared for Next-Gen Learners**
  - From intriguing thematic units to relevant texts and media, to Hook & Inspire features and current events podcasts, *myPerspectives* connects with students today and allows them to bring their own ideas and lived experiences to enrich learning.

## **WHAT WILL STUDENTS DO DURING CLASS?**

- **Integrated ELA Skills**
  - Students analyze texts through the eyes of a reader and writer and have academic discussions. They work on group projects, create their own compositions, and complete rigorous Performance-Based Assessments.
- **Interactive Learning on Savvas Realize**
  - *myPerspectives* on Savvas Realize® lets students use technology to make learning come alive with multimedia resources, personalized learning tools, and interactive lessons and video tutorials.
