A Peek at the Week

Math-This week, we will focus on adding 2 numbers within 1,000 using the vertical form. Some students have become comfortable using just the algorithm. We will be using models, such as place value disk drawings and chip drawings to help us solve an addition problem in vertical form.

CKLA Listening and Learning-- We will be finishing our domain about Westward Expansion this week. The domain assessment is this week.

CKLA Skills--We will continue to review parts of Unit 4 before starting Unit 5 next week. We are also spending time listening to each student read as we complete our middle of the year reading assessments.

Important Updates!

Yearbooks

Yearbook pre-order forms went home a couple of weeks ago. The price is now \$18. Get yours now! Please let me know if you need another form.

Valentine's Day:

A class list of names will be sent home soon. Students are welcome to bring in valentine cards/treats for each of their classmates on 2/14. There will not be a party.
