

3rd Grade News

Week of
October 3-7 2022

A Peek at the Week

Math: We will finish Module 1 by solving two-step word problems involving all four operations, and assess the reasonableness of answers. We will begin Module 2 by skip-counting by fives on the clock and telling time, and use the number line to count by fives and ones as a strategy to tell time to the nearest minute on the clock.

Tuesday: End of Module 1 Assessment

CKLA: This week, we will read about birds and mammals. We will learn how taxonomists classify these two groups.

In Skills, we will practice writing complete sentences and learn about abstract nouns. Spelling words will be words that end with the letter 'y'. We will learn how the spelling changes when we add the suffix -es to the end. A Spelling Test will be on Friday.

Important Updates

Parent Portal:
Parents have online, real-time access to information, including academic grades for students in third grade and above, attendance and tardy records.

Go to

<https://www.gcsnc.com/Page/17246> and look for the link to sign up under "New Users". There are also guides for creating an account and how to navigate the Parent Portal.

Important Dates

10/5– Teacher Workday

10/8-14– Book Fair

10/14– Movie Night (7:00 pm)

10/19– Picture Day

Parent Tips

Practice memorizing multiplication facts at home. Not only can you use flashcards, but you can also use math apps and websites, such as <https://www.timestables.com>.
