Principal/Care Giver Protocol – Student with COVID-19 C20.2

The online version of this procedure is official. Therefore all printed versions of this document are unofficial copies.

1.0 SCOPE

The purpose of this standard operating procedure is to ensure that principals respond appropriately when a student/child at their school tests positive for COVID-19 or has been exposed to someone with a lab-confirmed case of COVID-19 and/or COVID-19 symptoms, or who may be exhibiting symptoms of COVID-19. The procedure also is designed to ensure that principals notify public health and central administration in a timely manner if a student tests positive for COVID-19, shows symptoms or has been recently been exposed to someone with a verified/confirmed case COVID-19. As with all communicable diseases, appropriate public health protocols must be followed to safeguard other students and staff while also protecting the privacy of the individual student. The scope of this procedure is focused on school principals and other staff who may be supervising children in a GCS school or facility, including buildings, playgrounds, school campuses, athletic facilities, etc.
