OF THE
SUPERINTENDENT

Sept. 25, 2023

Dear Guilford County Families and Community Members,

Thank you for taking time to learn more about GCS' progress. This site provides important data related to student achievement from the 2022-23 school year.

Last year, 75 schools or 65 percent of GCS schools met or exceeded expected growth, up from 62 schools or 53 percent in 2021-22 – an increase of 13 schools. GCS saw increased proficiency for each grade span – elementary, middle and high schools – and all student groups compared to 2021-22.

Eighty-six schools increased their performance composites over 2021-22, and 28 schools had 2022-23 performance composites at or above pre-COVID levels in 2018-19, up from 20 in 2021-22.

We are proud of our students, teachers, school and district leaders who worked extremely hard to help students perform on grade level and improve their growth. Due to their hard work, GCS is no longer a low-performing district and continues to improve learning outcomes for students at a steady rate.

I encourage you to review our website, www.gcsnc.com, for more stories about how we are supporting our children. Thank you for joining us on this journey.

Sincerely,

Whitney Oakley, Ed.D.
Superintendent
