

Hello MC@B Belles!!

I am so grateful that the past 15 months are behind us, and I am anticipating what this school year will entail for you!! It is hard to believe you are seniors; these next 10 months will go quickly. Please honor this time, use it wisely and take advantage of each opportunity.

We have gotten settled in our new home at Hodgin Hall on the campus of North Carolina Agricultural and Technical State University. Our school is small but mighty; it will just be the Senior class this year. However, I believe you will accomplish GREAT things as Belles do!

This year is different; however, we overcame so much that I am certain we will overcome and shine brighter than before. We will keep some of the ideals and traditions of The MC@B and have lots of fun through exposure to new and innovative ideals, engage in school-wide service, keep a focus on leadership and prepare you for college.

We are a school who exceeds growth, has one hundred percent graduation rate, students who take hundreds of hours of college courses, are accepted to hundreds of colleges, amass thousands of service-learning hours and hundreds of thousands of dollars in scholarships!! Needless to say, we prioritize BelleXcellence and we know that each of you will accomplish great things!

Sincerely,

Dr. T.L. Maxwell
